

Conformance statement

This certifies that the **Welcome** web part from **Accelerator 365 by Reply (version 1.21.1.93)** is **fully compliant** with both the level A and AA guidelines as specified in the Web Content Accessibility Guidelines version 2.2 (<http://www.w3.org/TR/WCAG/>) by AbilityNet.

What was tested

The **Welcome** web part from **Accelerator 365 by Reply** was assessed for accessibility conformance under a set of representative usage scenarios. The assessment covered the *Featured layout* configuration.

Testing Environment

AbilityNet carried out accessibility testing on a Windows 11 machine with the latest version of Firefox (version 152.0.6) and NVDA screen reader (version 2026.1).

We use further manual-based testing tools, in addition to screen reader testing, such as keyboard testing, and the colour contrast analyser app, along with code inspection.

Testing took place between 02/07/2026 and 03/07/2026.

About AbilityNet

For more than 25 years AbilityNet has been a pioneering UK charity, providing specialist services and impartial support to create a digital world accessible to all.

Our teams of accessibility experts help organisations of all types and sizes build accessible digital products and services.

We are founder members of the International Association of Accessibility Professionals (IAAP) and the leader of the UK chapter.

We work closely with some of the biggest businesses on the planet and organise TechShare Pro, Europe's largest accessibility gathering.

Our consultants

Our accessibility consultants hold the IAAP CPWA (Certified Professional in Web Accessibility) accreditation.
